Economics Letters 52 (1996) 353–355

economics letters

Author index of volume 52

Agarwal, R., Technological activity and survival of firms 101
Agiakloglou, C. and P. Newbold, The balance between size and power in Dickey–Fuller tests with data-dependent rules for the choice of truncation lag 205

Barrett, A., The greencard lottery winners: Are they more or less skilled than other immigrants? 331
Batabyal, A.A. and S.J. Yoo, Corrigendum to "Renewal theory and natural resource regulatory policy under uncertainty": [Economics Letters 46 (1994) 240] 119
Bénassy, J.-P., Taste for variety and optimum production patterns in monopolistic competition 41
Bénassy, J.-P., Monopolistic competition, increasing returns to specialization and output persistence 187
Brännäs, K. and N. Karlsson, Estimating the perceived tax scale within a labor supply model 75
Burdett, K., Truncated means and variances 263
Bütefisch, T., *see* R. Jeske 235

Canning, D., Specialization, scale economies and economic development 95
Chami, R., King Lear's dilemma: Precommitment versus the last word 171
Chen, S.-l., *see* J.-l. Wu 193
Chichilnisky, G., Limited arbitrage is necessary and sufficient for the non-emptiness of the core 177
Coller, M., G.W. Harrison and T.F. Rutherford, Efficient equity: Removing salary discrimination by meeting statistical legal constraints at least cost 81

Dionne, G. and N. Fombaron, Non-convexities and the efficiency of equilibria in insurance markets with asymmetric information 31
Duca, J.V., Inflation, unemployment, and duration 293

Faria, J.R. and A.V. Mollick, Urbanization, economic growth, and welfare
Fombaron, N., *see* G. Dionne 31
Fountas, S., *see* J.-l. Wu 193
Fukushige, M., Annual redistribution and lifetime redistribution 269

Gençay, R. and X. Yang, A forecast comparison of residential housing prices by parametric versus semiparametric conditional mean estimators 129
Gerlach, K. and G. Stephan, A paper on unhappiness and unemployment in Germany 325

Hall, A. and T.Y. Lee, Instrumental variable based unit root tests when both ARMA (p, q) orders are chosen to be too large 247
Hansen, P.S., Permanent effects of monetary policy in a dynamic menu cost model 61
Harrison, G.W., *see* M. Coller 81
Hasan, S. and M. Wallace, Real exchange rate volatility and exchange rate regimes: Evidence from long-term data 67
Huang, D. and P. Madden, Endogenous competitive business cycles with positive outside money and positive interest elasticity of savings 309
Hurley, W. and L. McDonough, The favourite–longshot bias in parimutuel betting: A clarification of the explanation that bettors like to bet longshots 275

Jeske, R., T. Bütefisch and S.H. Song, The efficiency of the sample mean in a linear regression model when errors follow a first-order moving average process 235

Elsevier Science S.A.

Karlsson, N., *see* K. Brännäs 75
Kim, H.-S., Equilibrium and efficiency in auctions of complementary goods without bund..... 49
Kim, J.-C., *see* J.-H. Kim 345
Kim, J.-H. and J.-C. Kim, Quality choice of multiproduct monopolist and spill-over effect 345
King, M.L., *see* P. Wu 121

Laffont, J.-J. and J. Robert, Optimal auction with financially constrained buyers 181
Laslier, J.-F., Rank-based choice correspondences 279
Lee, T.Y., *see* A. Hall 247
Li, Q., Estimating a stochastic production frontier when the adjusted error is symmetric 221
Li, W., Asymptotic equivalence of estimators of average derivatives 241

Madden, P., *see* D. Huang 309
Maki, A. and S. Nishiyama, An analysis of under-reporting for micro-data sets: The misreporting or double-hurdle model 211
Mamingi, N., Aggregation over time, error correction models and Granger causality: A Monte Carlo investigation 7
Mariotti, M., Non-optimal Nash bargaining solutions 15
Mata, J., Markets, entrepreneurs and the size of new firms 89
McDonough, L., *see* W. Hurley 275
Mills, T.C., G. Pelloni and A. Zervoyianni, Cyclical unemployment and sectorial shifts: Further tests of the Lilien hypothesis for the UK 55
Mollick, A.V., *see* J.R. Faria
Monteiro, P.K. and F.H. Page Jr., Non-linear pricing with a general cost function 287
Murphy, A., Simple LM tests of mis-specification for ordered logit models 137

Neilson, W.S. and H. Winter, Infinitely-repeated games with endogenous discounting 163
Newbold, P., *see* C. Agiakloglou 205
Nishiyama, S., *see* A. Maki 211

Ogwang, T. and U.L.G. Rao, A new functional form for approximating the Lorenz curve 21
Orphanides, A., Optimal reform postponement 299

Page, Jr., F.H. and M.H. Wooders, The Partnered Core of an Economy and the Partnered Competitive Equilibrium 143
Page Jr., F.H. and M.H. Wooders, A necessary and sufficient condition for the compactness of individually rational and feasible outcomes and the existence of an equilibrium 153
Page Jr., F.H., *see* P.K. Monteiro 287
Pelloni, G., *see* T.C. Mills 55
Pill, H., Evaluating target zone models in EMS data 199

Rao, U.L.G., *see* T. Ogwang 21
Robert, J., *see* J.-J. Laffont 181
Rutherford, T.F., *see* M. Coller 81

Song, S.H., *see* R. Jeske 235
Stephan, G., *see* K. Gerlach 325

Thomas, J.M., Sectoral shifts and the mobility of displaced workers: When are microdata useful? 337

Urga, G., On the identification problem in testing the dynamic specification of factor-demand equations 205
